- chauhanpeeyush2473@gmail.com
- New Delhi, India
- <https://github.com/Peeyush2473>

SKILLS

- Strategic Planning
- Problem Solving
- Creative Thinking
- Data Analysis
- Adaptability to Change
- Machine Learning
- Website Development

LANGUAGES

- English (Fluent)
- Hindi (Fluent)

PROFILE

I am a Student of VIT Bhopal University excelling in machine learning and data analysis. Adept in C++ and Python, I leverage technical expertise and strong problem-solving skills to drive innovative solutions.

PROJECTS

- 1. Online Fraud Detection**
Tech Stack: Python, Scikit-learn, Flask, Pandas
 - Built a machine learning model using Random Forest Classifier to identify fraudulent transactions from financial datasets
 - Deployed the model via Flask into a user-friendly web application
 - Achieved high accuracy by applying feature scaling and log transformations
- 2. Meal Planner AI**
Tech Stack: Python, Scikit-learn, Flask, Pandas
 - Built a machine learning model using Random Forest Classifier to identify fraudulent transactions from financial datasets
 - Deployed the model via Flask into a user-friendly web application
 - Achieved high accuracy by applying feature scaling and log transformations

EDUCATION

- Bachelor of Technology** 2023-Present
VIT Bhopal University
9.2 CGPA
Member of Cognitive Fitness Club
Member of Mathematics Club
- High School Diploma** 2010-2022
N.K. Bagrodia Public School
